If the accounting trails for our Mother's estate were exposed, those who recognize accounting trails will be able to recognize that the CPA Joanne Barnes and the Attorney Edward White steal money and cover themselves by using an innocent family member to carry out their instructions. Their instructions create confusion and conflict in the family and set one family member against another, which destroys the family's unity and consequently the family's ability to protect itself. The evidence is in exposing the accounting trails at bk467p191 and enforcing the rule of law.

Our family is innocent and needs protection. We need a just power to personally visit our innocent sister Jean Nader at 350 Fourth Avenue, New Kensington, PA 15068, and protect her and tell her, until she understands, and feels safe and is safe, that she is being used by the accountants. Expect unlimited obstacles from numerous sources.
